

*International
Safety and Health
Construction Coordinators Organization*

PRESS RELEASE

ISHCCO President Represents the Organization at Forum Prävention International 2025 AUVA | Vienna, Austria | 20-22 May 2025

The President of ISHCCO (International Safety and Health Construction Coordinators Organization), **Evangelitsa Tsoulofta**, was invited to participate in the **Forum Prävention International 2025**, organized by **AUVA (Allgemeine Unfallversicherungsanstalt)** in Vienna, Austria.

ISHCCO's presence emphasized the critical role of Construction Safety and Health Coordinators in achieving safe and healthy construction sites. As a speaker in the **Construction Section** of the Forum, ISHCCO President presented:

- An overview of ISHCCO's mission and ongoing activities, and
- The **ISHCCO Qualification Framework (IQF)**, highlighting its significance in promoting a shared European approach to Safety and Health Coordination in construction projects.

The Forum offered a diverse program with high-profile presentations, practical workshops, topic-specific working groups and parallel sessions focused on specific industries and topics. At the trade fair, 70 exhibiting companies showcased a cross-section of current developments in the field of prevention. The Prevention International 2025 Forum impressively demonstrated the importance of international dialogue for the advancement of prevention.
